

VIII MIPS ANNUAL CONGRESS ROME

16 FEB - 18 FEB 2023

Meeting Chair: Enrico Finazzi Agrò

FINAL PROGRAMME

VIII MIPS ANNUAL CONGRESS ROME

16 FEB - 18 FEB 2023

WELCOME MESSAGE

Dear Friends and Colleagues,

It gives me great pleasure to welcome you to the Eighth MIPS Annual meeting held in the Eternal City, Rome, Italy at the Pontificia Università Lateranense located in the city centre within an easy reach to the Colosseum. You all know already that because of uncertainty about the global Covid-19 pandemic, it was decided to postpone the 2022 meeting to 16-18 February, 2023. Our Host Chair: Professor Enrico Finazzi Agrò will most certainly organize an excellent meeting to build on the outstanding successes of the previous seven annual meetings. The scientific programme has been granted 11 CME credits by the EACCME and includes the most recent advances in female and male pelvic floor medicine with multi-disciplinary sessions tailored to health care provider's educational needs and training priorities as well as patient care in Mediterranean countries. We believe that the meeting will further scientific interaction and friendship between health care providers working in our region with a consequent positive impact on pelvic floor health. See you in Rome!

Diaa Rizk - MIPS President

Dear MIPS members and friends,

It is a pleasure and a honor to host the 2023 MIPS annual meeting, in Rome, my "eternal" city! Ancient Romans used to call the Mediterranean sea "Mare Nostrum", that means "Our Sea", because the roman empire was extended to comprise all the surrounding lands. For MIPS members, Mediterranean sea is really "Our Sea", that should not be considered as an entity that separates our countries but as a bridge that human beings always used to bring their culture from one place to another. I am sure that the MIPS meeting will be an opportunity to exchange experiences on the management of pelvic organs and pelvic floor dysfunctions among experts coming from different countries and with different trainings and professions. The program will be full of topics that, I hope, will be interesting either for the experienced professionals either for the "newcomers". I look forward to seeing all of You in Rome in February!

Enrico Finazzi Agrò - Meeting Chair

MIPS MISSION

The Mediterranean Incontinence and Pelvic Floor Society promotes, enhances and spreads the studies on prevention and treatment of patients affected by functional or morphological disturbances, urinary or fecal incontinence, sexual or painful pelvic floor dysfunctions related to neurological, gynecological and urological diseases with a particular attention for the whole Mediterranean area. The MIPS Executive Board and the Education Committee are happy to invite gynecologists, urologists, neurologists, nurses, obstetricians and physiotherapists from all over the world, as well as other experts providing healthcare assistance in the pelvic floor area, to participate at our non-profit activities and give their personal contribution to the scientific studies so as to share everyone's professional experience.
